

## Laboratory Technician Assistant

Testing laboratory, accredited ISO 17025 and located in Dorval, is looking for a technician assistant. The candidate will have to perform various mechanical resistance tests, physical tests and accelerated aging tests (corrosion, UV, etc...). The candidate must have a good command of the second language.

### Specific Tasks:

Assist technicians in performing the following tests:

- Preparation of samples and test benches
- Performing standardized and non-standardized tests
- Testing using a universal testing system (Instron or equivalent).
- Accelerated aging tests
- Tests on office furniture
- Packaging testing

### Job Requirements:

- Sec V in life sciences
- Familiarity with MS Office Suite
- Proficiency in both official languages, written and oral.
